

7. LEARNING PLAN

LO	Course Contents / Subject Matter	Teaching and Learning Activities (Methodology)	Assessment	Resources	Timeframe
	☐ Course Overview. ☐ Re-orientation of the University Vision, Mission, Quality Policy, core Values and the College Goals & Objectives.	.			Week 1
☐ Understand the basics and significance of multimedia.	Module 1: Introduction to Multimedia ☐ Definition and history of multimedia ☐ Components of multimedia ☐ Applications of multimedia in various fields	Activity: Research and create a presentation on examples of multimedia in daily life.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts.	☐ Books ☐ e-Books ☐ Online resources	
☐ Learn the importance of text design in multimedia projects.	Module 2: Text and Typography in Multimedia ☐ Role of text in multimedia design ☐ Typography principles (font types, alignment, spacing, hierarchy) <i>Suggested Software:</i> ☐ Adobe InDesign	Laboratory Exercises: Exercise 1: Create a visually appealing flyer or poster. Exercise 2: Design an invitation programme cover layout with a focus on typography.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 2 – 3
☐ Gain foundational skills in graphic design and image manipulation.	Module 3: Graphics Design Fundamentals ☐ Raster vs. vector graphics ☐ Image editing basics (cropping, color correction, resizing) <i>Suggested Software:</i> ☐ Adobe Photoshop & Adobe Illustrator	Laboratory Exercises: Exercise 3: Image Editing (Before & After). Exercise 4: Create a simple logo.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 4 - 5

LO	Course Contents / Subject Matter	Teaching and Learning Activities (Methodology)	Assessment	Resources	Timeframe
☐ Assess students' ability to combine multiple multimedia elements cohesively.	Module 4: Audio in Multimedia ☐ Basics of sound (frequency, amplitude) ☐ Recording and editing audio <i>Suggested Software:</i> ☐ Adobe Audition; Audacity	Laboratory Exercises: Exercise 5: Record and edit a short audio clip. Exercise 6: Add background music and sound effects to a recorded narration.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 6 - 7
Project Submission and Presentation (MCO1)					Week 8
Midterm Examination					Week 9
☐ Learn the basics of video editing and production.	Module 5: Video Basics ☐ Fundamentals of video production (storyboarding, shooting, editing) ☐ Adding transitions and effects <i>Suggested Software:</i> ☐ Adobe Premiere Pro; DaVinci Resolve	Laboratory Exercises: Exercise 7: Create a short video with transitions and effects.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 10-11
☐ Introduce students to basic animation techniques.	Module 6: Introduction to Animation ☐ Basics of 2D animation ☐ Frame-by-frame animation and tweening <i>Suggested Software:</i> ☐ Adobe Flash/Animate	Laboratory Exercises: Exercise 8: Create a morphing shape animation. Exercise 9: Create a frame-by-frame animation of a bouncing ball. Exercise 10: Develop a simple animated banner ad.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 12-13

LO	Course Contents / Subject Matter	Teaching and Learning Activities (Methodology)	Assessment	Resources	Timeframe
☐ Apply design principles to create aesthetically pleasing outputs.	Module 7: Multimedia Design Principles ☐ Color theory, layout, and balance ☐ Principles of effective multimedia design <i>Suggested Software:</i> ☐ Adobe Flash/Animate	Exercise 11: Design a user-friendly website mockup.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 14-15
☐ Explore the basics of interactive multimedia.	Module 8: Introduction to Interactive Multimedia ☐ Basics of interactivity in multimedia ☐ Simple interactive projects (e.g., clickable buttons, basic navigation) <i>Suggested Software:</i> ☐ Adobe Animate, PowerPoint (for clickable prototypes)	Exercise 12: Create an interactive slideshow or menu.	☐ Weekly Quizzes & Assignments: Short quizzes to test theoretical understanding of multimedia concepts. ☐ Peer Reviews: Ongoing peer feedback to promote collaborative learning.	☐ Books ☐ e-Books ☐ Online resources	Week 15 – 16
Final Project Presentation and Evaluation (MCO2)					Week 17
Final Examination					Week 18
